Electric cooker 729529 EC63INI

USP :

SilverMatte	✓
MultiAir	✓
Door type	Triple glazed oven door with one heat deflector (CoolDoor)
GentleClose door hinge	Ovens in the Infinity cookers stand out with remarkably smooth, easy and silent door closing. A gentle touch is enough to automatically close the door with style. The stylish handle with the Infinity line logo rounds off the charming appearance of the entire cooker into a harmonious whole.
Oven type	Multisystem oven BigSpace - 71 l SuperSize baking area
TouchFree Inox	✓
Maximum oven temperature	275 °C
Dynamic oven cooling plus - DC+	The DynamiCooling system efficiently cools the cooker exterior to prevent any damage caused by high temperature. In cookers with the DC+ system, the heat sensors regulate the cooling of the oven exterior walls until they reach a safe temperature of 60 °C.
Foldable top heater for easy cleaning	✓
HomeMade Plus shape	The oven, now even more spacious, features an oval shape that successfully mimics the traditional wood-fired ovens. This allows optimum circulation of air that completely embraces the food to make it tender and juicy on the inside and amazingly crunchy on the outside. The air is even better distributed throughout the 71-litre cavity with recessed sides, which decreases the occurrence of cool spots that preclude even browning. Special air circulation dynamics affords excellent conditions for professional cooking on a single rack or on several racks simultaneously.
Residual heat indicator	✓
