Gorenje Retro refrigerator –ORK192BL

IonAir with DynamiCooling	Advanced fan system with dynamic cooling evenly distributes the ionized air and equalizes the temperature throughout the entire refrigerator. Air enriched with extra negative ions mimics the natural microclimate that keeps the food fresh for longer. Moreover, any type of food can be placed on any shelf in the fridge as there are no temperature differences.
AdaptCool: Adaptive Intelligent System	This smart system was devised to maintain the optimum temperature in the refrigerator regardless of its use. As a result, the food remains fresh and rich with vitamins as it is not exposed to thermal shocks caused by frequent opening of the refrigerator door.
