Mechanic control

Door bottle container

1 single container without stopper

Illuminated interior of refrigerator compartment

LED bulb on side

Type of ventilation

Ventilation with fan through base

Door to door hinge

The heavy-duty hinge allows storing heavier items in the door bins, as well as opening the door to an angle of 115°. This allows a clearer look of the interior and makes loading the fridge and taking the food from it more convenient as the door won't keep closing. If the door is left ajar, the hinge will fully close it to save power.
