This iron has an advanced perfect glide soleplate made out of ceramic providing even steam distribution through its carefully designed vent holes. Because of low friction and optimal gliding you get excellent ironing results with every type of fabric. It is scratch resistant and easy to clean.

Anti-limescale system for a long useful life of the iron

No-drip system

Auto clean function for care-free use

Vertical ironing for sensitive fabric

Ironing without steam

Ironing with dry steam

ECO program for economical use	
Advanced steam release system with more nozzles	
Advance pump	
Temperature indicator for full control	
Steam release regulator	99 g/min
Steam blast for immediate extra steam	250 g/min
Tip for precision ironing	
Digital display	white
Info display	Clearly laid out LED display
Water hardness indicator	
Water level indicator	
Cartridge status indicator	
Water can be refilled during ironing	
Feed opening with a cover	Very useful, large feed opening with a cover
Removable water tank for easy maintenance	
Ergonomic design for a perfect fit	
Feet for stability	Keeping such a powerful appliance firmly in place requires good architectural form and rubber feet at the bottom to make sure the appliance doesn't move during operation or when removing the jug.
Automatic power-off	
Water tank capacity	1,00 l
Steam pressure	6 bar
Material	Plastic + metal
Length electrical cord	1,9 m
Dimensions (W×H×D)	39 × 24 × 21 cm
Dimensions of packed product (W×H×D)	39,5 × 31 × 24,5 cm
Net weight	3,3 kg
Gross weight	4,5 kg
Connected load	2400 W
Product code	With P-TEMP function you will be able to iron most of the fabrics without any manual adjustment of temperature and steam quantity. This function has a preset optimal combination of temperature and quantity of steam for perfect results. At any time you can change your ironing settings to one of the nine preset programs (e.g. linen, wool, silk).
