Fridge/freezer 517335 ORK192C

USP :

IonAir with DynamiCooling

Advanced fan system with dynamic cooling evenly distributes the ionized air and equalizes the temperature throughout the entire refrigerator. Air enriched with extra negative ions mimics the natural microclimate that keeps the food fresh for longer. Moreover, any type of food can be placed on any shelf in the fridge as there are no temperature differences.

AdaptTech: Adaptive Intelligent System

This smart system was devised to maintain the optimum temperature in the refrigerator regardless of its use. As a result, the food remains fresh and rich with vitamins as it is not exposed to thermal shocks caused by frequent opening of the refrigerator door.

CrispZone with HumidityControl

FreshZone drawer

The drawer with the lowest temperature in the refrigerator is ideal for storing meat, fish, fruit, and vegetables. It will preserve the food's freshness, aroma, colour, and flavour for much longer.

XXL SpaceBox drawer

FrostLess

Improved insulation effectively reduces the accumulation of frost on the food and ice in the appliance interior. This means less tedious defrosting and a lower electricity bill.
