

Gorenje Washing Machine 7kg WNEI72B

Technical Data:

- Energy class B (A+++)
- Noise level centrifugation dB(A) 74 (B)
- Filling 7 kg
- Drum Volume 54 l
- Spin Speed 1200 rpm
- Motor Inverter PowerDrive Motor
- Program duration (sensitive 30/40° C) 67 mins
- 40°C duration 195 mins
- Eco Duration 181 mins
- 90/95 °C duration 218 mins
- Power consumption - a normal program 0.45 kWh
- Energy consumption per 100 cycles 45 kWh
- Dimensions: WxHxD 60x85x55 cm
- Gross weight of the product 65.5 kg
- Net weight of the product 64.1 kg
- Connecting voltage 220-240 V
- Docking power 1900 W
- Product Code 739370
- EAN Code 3838782546501

Powerful, yet silent engine

This quiet but highly efficient engine is designed to ensure a longer lifespan of the washing machine, saving energy at each cycle of washing.

WAVEACTIVE DRUM

Gentle treatment of each laundry

The unique wave-shaped drum pattern combined with special 3D wave-shaped ribs softens the fibers to give the clothes the gentlest treatment and provide perfectly clean laundry, with minimal folds.

Quick Wash

Just 20 minutes is enough to refresh your new T-shirt and other less unclean laundry. So your favorite clothes will always be ready to wear.

Reduce the folds in the clothes.

If you are not able to immediately remove the laundry from the washing machine, do not worry, this feature will make sure that your laundry does not crumple further. The Anti-creas feature is designed to reduce the creasing of clothes. The drum will rotate for the next 2 hours after the laundry cycle has been done. You can stop this option at any time by pressing the Start/Stop key or by turning it on/off.
