Oven 740958 BOS6737SYW

USP :

Door type	Double glazed oven door with one heat deflector (CompactDoor)
SoftOpen and GentleClose door hinge	Only a soft touch is needed to open or close the oven door smoothly, without any noise.
Oven type	Multisystem oven BigSpace - 77 l SuperSize baking area
TouchFree Inox	Yes
Maximum oven temperature	300 °C
Dynamic oven cooling plus - DC+	The DynamiCooling system efficiently cools the oven exterior (or housing) to prevent any damage caused by high temperature. In ovens with the DynamiCooling+ system, the heat sensors regulate the cooling of the oven exterior walls until they reach a temperature of 60 °C. This is particularly convenient in ovens with the pyrolytic cleaning function which works with extremely high temperatures.
SuperSize	Yes
HomeMade Plus shape	Gorenje ovens are well known for their innovative rounded cavity, which has been their distinctive feature for many years. The HomeMade shape was inspired by the traditional wood burning ovens and ensures better circulation of air compared to competitors. Now, the HomeMade shape has been completely revamped and the airflow perfected due to a new heater design and the improved distribution of the ventilation openings. That is why the temperature is stable throughout the oven. Never again will your dishes be burnt on one side and underdone on the other.
ExtraSteam	This program creates the perfectly steamed environment that ensures your bread will have a high rise and crunchy crust. All you have to do is put some water into a shallow tray, select the ExtraSteam program and let the oven do the work.
GentleBake	This function is all about gentle, slow and even baking. This way, the moisture is locked inside and the food stays staying super tender and juicy. Suitable for preparing meat, fish or pastry on one level.
Large infra heater	Yes
AirFry	Now you can have the crispiness and tastiness of fried food without the extra calories. This method of extremely intensive baking with hot air doesn't require any fat to ensure that perfectly delicious crunchy golden crust. In combination with special perforated baking tray, (depending on the model), that perfectly encapsulate the dish all around, you will achieve even better results. Suitable for small cuts of meat, fish, vegetables and pre-prepared frozen products, like French fries and chicken nuggets.
Interior light	Above
Gratin	The Gratin option lets you create the perfectly golden brown crust on lasagnas, meat, potatoes au gratin and other au gratin dishes.
PerfectGrill	The best baking results are achieved with a combination of larger and smaller heaters, where the latter is positioned inside the larger one. The smart positioning of the heaters allows optimal heat distribution and provides the ultimate baking results every time, so food is crispy on the outside and soft on the inside.
EcoClean enamel	Yes
